Hull, UK

hushoca@gmail.com

+44 7438 807969

A passionate and driven Full Stack Engineer with 9 years of professional experience, specialising in .NET and React ecosystems. Has a strong background in microservices architecture, cloud infrastructure and building scalable web applications. Known for taking ownership, mentoring developers and pushing teams toward better engineering practices.

TECHNICAL SKILLS

Frontend	React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Svelte, SvelteKit, Cypress
Backend	.NET 10, C#, ASP.NET Core, ASP.NET Core Web API, ASP.NET MVC, Blazor, EF Core, REST, GraphQL, SOAP, LINQ, XUnit
Databases	TSQL, Azure SQL, MSSQL, PostgreSQL, MongoDB, Azure Cosmos DB, Elasticsearch
Cloud & DevOps	Azure, AWS, Kubernetes, Docker, CI/CD, Git, TFS
Other	Microservices, Clean Architecture, Vertical Slice Architecture, SOLID, DRY, Agile, Selenium, Puppeteer, Load Testing, Application Security

EXPERIENCE

Senior Full Stack Developer - Optix

Mar 2024 - Mar 2026

York (Hybrid)

- Built and maintained microservices handling patient data, financial transactions and payment processing using .NET, C# and React
- Integrated Verifone payment systems via their cloud APIs, enabling seamless in-store and online payment flows
- Drove the team's transition away from a distributed monolith toward a properly decoupled microservices architecture
- Mentored junior and mid-level developers, conducted yearly performance reviews and reviewed PRs to maintain code quality
- Helped resolve critical security vulnerabilities and championed better security practices across the engineering team
- Assisted with technical hiring by reviewing and scoring candidate technical assessments

Senior Software Engineer - San Digital

May 2023 - Oct 2023

Remote (Remote)

- Worked across multiple client projects in the EV charging space, delivering web applications using React, Next.js, Blazor and .NET
- Contributed to Azure-hosted solutions following clean architecture principles and SOLID design
- Maintained and improved customer-facing websites, ensuring reliability and performance
- Collaborated on technical proposals and sales pitches for prospective clients

Senior Full Stack Developer - Summit Media

Feb 2021 - May 2023

Hull (Hybrid)

- Designed and architected an affiliate manager platform end to end, built on Azure using .NET, React and MSSQL
- Led a small team of developers, taking on planning, code reviews and technical direction alongside delivery
- Introduced vertical slice architecture and Cosmos DB to improve scalability and maintainability
- Mentored junior developers and contributed to hiring decisions, including technical interviews

Full Stack Developer - Aptean / Paragon HDX

Aug 2017 - Feb 2021

United Kingdom (On-site)

- Led the migration of the flagship HDX product from IE6 to modern browser support, significantly improving usability and performance
- Established CI/CD pipelines, branching strategies and code review processes from scratch across a team of 25 engineers
- Defined and rolled out coding standards and security standards adopted company-wide following the Aptean acquisition
- Joined the Aptean security team as a developer to write security documentation, evaluate new technologies and build security automation tooling

CERTIFICATIONS

70-761: Querying Data with Transact-SQL - Microsoft

70-480: Programming in HTML5 with JavaScript and CSS3 - Microsoft

Emergency First Aid - RYA

EDUCATION

BEng Electronic Engineering (2:1) 2014 - 2017
University of Hull

ADDITIONAL

Nationality: Cypriot (EU Settled Status in the UK)

Languages: English, Turkish

Interests: Sailing, Hiking, Electronics, Pottery

Other: Full UK Driving License, Clean Driving Record
