

Huseyin Hoca

Senior Full Stack .NET Developer

Hull, UK

hushoca@gmail.com

+44 7438 807969

A senior full stack .NET developer with 9 years of commercial experience building and delivering software across a range of industries. Skilled across the full stack with a strong focus on C#, .NET and SQL Server, alongside modern front end frameworks like React. Has a natural tendency to take on technical leadership, mentoring developers and helping shape best practices within growing teams.

TECHNICAL SKILLS

Frontend	React, Next.js, HTML, CSS, JavaScript, TypeScript, Svelte, SvelteKit, Cypress
Backend	C#, .NET, ASP.NET MVC, ASP.NET Web Forms, EF Core, REST, GraphQL, CQRS, Event Sourcing, Event Driven Architecture, RabbitMQ
Databases	MSSQL, PostgreSQL, MongoDB, Azure Cosmos DB, Elastic Search
Cloud & DevOps	Azure, Azure DevOps, AWS, Docker, Kubernetes, Helm, CI/CD, GitHub Actions
Other	SOLID, TDD, BDD, Clean Architecture, Vertical Slice Architecture, Distributed Systems, Scrum, Microservices

EXPERIENCE

Senior Full Stack Developer - Optix

Mar 2024 - Mar 2026

York (Hybrid)

- Led feature development across a microservices-based platform handling sensitive clinical and financial data, using C#, .NET and SQL Server
- Mentored junior and mid-level developers, conducted yearly reviews and monitored PRs to maintain code quality
- Helped drive the architectural shift from a distributed monolith toward true microservices, advising on service boundaries and data ownership
- Integrated Verifone payment systems via their cloud APIs as part of the till and payments team
- Built new services responsible for document publishing, customer email notifications and payment processing
- Assisted with hiring by reviewing and scoring technical assessments

Senior Software Engineer - San Digital

May 2023 - Oct 2023

United Kingdom (Remote)

- Worked as part of a consultancy team delivering web apps and software solutions for clients primarily in the EV charging sector
- Contributed to full stack development using React, Next.js, .NET and Azure across multiple client projects
- Maintained and improved client-facing websites and internal tooling

Senior Full Stack Developer - Summit Media

Feb 2021 - May 2023

Hull (Hybrid)

- Designed and planned the full Azure-hosted architecture for an affiliate manager platform from the ground up
- Took a lead role within a small team, effectively driving technical direction and architecture decisions
- Interviewed candidates and contributed to hiring decisions to grow the team
- Mentored junior developers and helped raise overall code quality across the team

Full Stack Developer - Aptean / Paragon HDX

Aug 2017 - Feb 2021

United Kingdom (On-site)

- Led the migration of the HDX platform from IE6 to modern browser support, spanning both legacy WebForms and newer components

- Established branching strategies, CI/CD pipelines and code review processes across the engineering team
- Defined and rolled out coding standards and security standards used across the business
- Seconded into the Aptean security team post-acquisition to produce security documentation and build internal security automation tooling
