

Huseyin Hoca

Senior Full Stack Developer

Hull, UK

hushoca@gmail.com

+44 7438 807969

A passionate full stack engineer with 9 years of professional experience, specialising in .NET and React ecosystems. Has a strong background in microservices architecture, cloud infrastructure and distributed systems. Known for taking ownership, driving technical improvements and mentoring engineers to help teams deliver better software.

TECHNICAL SKILLS

Frontend	React, TypeScript, JavaScript, HTML, CSS, Next.js, Svelte, SvelteKit, Cypress
Backend	.NET, C#, ASP.NET Core, ASP.NET MVC, EF Core, REST, GraphQL, CQRS, Event Sourcing, Microservices, RabbitMQ, SOAP
Databases	MSSQL, PostgreSQL, MongoDB, Azure Cosmos DB, Elasticsearch
Cloud & DevOps	Azure, AWS, Docker, Kubernetes, Helm, CI/CD, GitHub
Other	Event-Driven Architecture, Distributed Systems, Clean Architecture, Vertical Slice Architecture, SOLID, TDD, BDD, Agile, Scrum

EXPERIENCE

Senior Full Stack Developer - Optix Mar 2024 - Mar 2026
York (Hybrid)

- Worked across the full stack delivering features in React and .NET microservices, with a focus on BE services towards the latter part of the role
- Helped drive the migration from a distributed monolith toward a proper microservices architecture using event-driven design, RabbitMQ and CQRS
- Built new services responsible for document publishing, customer email notifications and payment processing, integrating Verifone via their cloud APIs
- Worked with Kubernetes, Docker and Helm to manage deployments and contributed to load testing efforts to ensure system reliability
- Mentored junior and mid-level engineers, conducted yearly reviews and supported hiring by reviewing technical assessments
- Collaborated with leadership to push for better engineering practices and improved architectural standards across the organisation

Senior Software Engineer - San Digital May 2023 - Oct 2023
United Kingdom (Remote)

- Worked as a senior engineer in a consultancy environment, building web applications and software products for clients primarily in the EV charging sector
- Delivered full stack work across React, Next.js and .NET using clean architecture and ASP.NET Minimal APIs
- Contributed to cloud infrastructure across both Azure and AWS environments using Kubernetes and Docker

Senior Full Stack Developer - Summit Media Feb 2021 - May 2023
Hull (Hybrid)

- Designed and planned the full Azure-based architecture for an affiliate manager platform, making key decisions on infrastructure, services and data storage
- Worked across the stack using React, Svelte and .NET, delivering features end to end in a small, fast-moving team

- Took on lead developer responsibilities including interviewing candidates, mentoring junior engineers and establishing team standards
- Used Kubernetes, Docker and Helm to manage cloud deployments on Azure

Full Stack Developer - Aptean / Paragon HDX

Aug 2017 - Feb 2021

United Kingdom (On-site)

- Led the effort to modernise the HDX application, migrating from IE6 to modern browser support across Chrome and Firefox
- Established branching strategies, CI/CD pipelines and code review processes that were adopted across the engineering team
- Defined coding and security standards for the team and ran application security testing across flagship products
- After the Aptean acquisition, moved into a developer role within the security team, writing security documentation, evaluating new technologies and building security automation tooling

CERTIFICATIONS

70-761: Querying Data with Transact-SQL - Microsoft

70-480: Programming in HTML5 with JavaScript and CSS3 - Microsoft

Emergency First Aid - RYA

EDUCATION

BEng Electronic Engineering (2:1) 2014 - 2017
University of Hull
