

Huseyin Hoca

Senior .NET Engineer

Hull, UK

hushoca@gmail.com

+44 7438 807969

A Senior .NET Engineer with 9 years of professional experience building scalable, modern software across full stack environments. Has a strong track record in consultancy and client-facing settings, with hands-on experience in healthcare domains. Comfortable taking ownership of technical decisions, championing good engineering practices and driving innovation in fast-moving teams. Equally at home writing code as mentoring engineers or leading technical conversations with stakeholders.

TECHNICAL SKILLS

Frontend	React, NextJs, Svelte, SvelteKit, TypeScript, JavaScript, HTML, CSS, Cypress
Backend	.NET, C#, EF Core, XUnit, ASP.NET MVC, ASP.NET Minimal APIs, REST, GraphQL, CQRS, Event Sourcing, Event-Driven Architecture, RabbitMQ
Databases	MSSQL, PostgreSQL, MongoDB, Azure Cosmos DB, Elasticsearch
Cloud & DevOps	Azure, AWS, Docker, Kubernetes, Helm, CI/CD, Azure DevOps, GitHub Actions, TFS
Other	Microservices, Distributed Systems, Clean Architecture, Vertical Slice Architecture, SOLID, TDD, BDD, Scrum, Selenium, Puppeteer

EXPERIENCE

Senior Full Stack Developer - Optix

Mar 2024 - Mar 2026

York (Hybrid)

- Worked across clinical and payments teams building services handling sensitive patient and financial data
- Integrated Verifone payment systems using their cloud APIs, delivering end-to-end payment processing within the platform
- Built new services covering document publishing, customer communications and payment processing
- Drove the architectural shift from a distributed monolith toward true microservices, introducing event-driven patterns using RabbitMQ and CQRS
- Mentored engineers, conducted yearly reviews and supported hiring by reviewing technical assessments
- Identified and resolved security vulnerabilities and pushed for better engineering practices across the business

Senior Software Engineer - San Digital

May 2023 - Oct 2023

United Kingdom (Remote)

- Worked within a consultancy delivering web applications and software solutions for clients primarily in the EV charging sector
- Contributed to client-facing proposals and sales pitches, helping shape how technical solutions were presented to prospective clients
- Maintained and improved customer-facing web products across a modern cloud-based stack
- Worked across Azure and AWS environments using containerised deployments with Kubernetes and Docker

Senior Full Stack Developer - Summit Media

Feb 2021 - May 2023

Hull (Hybrid)

- Led the architecture and delivery of an affiliate management platform built entirely on Azure
- Took on de facto lead developer responsibilities within a small, agile team
- Involved in hiring decisions and interviewed candidates to help grow the engineering team
- Mentored junior engineers and helped raise the overall quality of the team's output

Full Stack Developer - Aptean / Paragon HDX

Aug 2017 - Feb 2021

United Kingdom (On-site)

- Led the migration of the HDX platform from IE6 to modern browser support, a significant undertaking across a legacy codebase
- Established branching strategies, CI/CD pipelines and code review processes from the ground up
- Defined coding and security standards adopted across the engineering team
- Moved into a cross-functional security role post-acquisition, writing security documentation, evaluating new tooling and building internal security automation

CERTIFICATIONS

70-761: Querying Data with Transact-SQL - Microsoft

70-480: Programming in HTML5 with JavaScript and CSS3 - Microsoft

Emergency First Aid - RYA

EDUCATION

BEng Electronic Engineering (2:1) 2014 - 2017
University of Hull

ADDITIONAL

Nationality: Cypriot (EU Settled Status in the UK)
Languages: English, Turkish
Interests: Sailing, Hiking, Electronics, Pottery
Other: Full UK Driving License, Clean Driving Record
