

Huseyin Hoca

Senior Full Stack .NET Developer

Hull, UK

hushoca@gmail.com

+44 7438 807969

A full stack .NET developer with 9 years of professional experience building and maintaining web applications across greenfield and legacy projects. Skilled in C#, .NET, React and database design, with a strong background in clean architecture, CI/CD and Agile delivery. Has consistently taken on lead responsibilities including mentoring, code reviews, coding standards and stakeholder collaboration. Comfortable working independently or as part of a team to deliver high quality software on time.

TECHNICAL SKILLS

Frontend	React, Next.js, Blazor, HTML5, CSS3, JavaScript, TypeScript, Svelte, SvelteKit
Backend	C#, .NET, ASP.NET Core, ASP.NET MVC, Minimal APIs, REST, GraphQL, Entity Framework Core, LINQ, SOAP, VB.NET
Databases	PostgreSQL, MSSQL, MongoDB, Azure Cosmos DB, Elasticsearch
Cloud & DevOps	Azure, AWS, Azure DevOps, Kubernetes, Docker, CI/CD Pipelines, Git
Other	Agile, Kanban, Clean Architecture, Vertical Slice Architecture, SOLID, XUnit, Cypress, Selenium, Application Security Testing

EXPERIENCE

Senior Full Stack Developer - Optix

Mar 2024 - Mar 2026

York (Hybrid)

- Worked across greenfield microservices using C#, .NET, PostgreSQL and React, contributing to both backend and frontend development
- Built new services handling document publishing, payment processing and customer communications, integrating Verifone via their cloud APIs
- Helped drive the architectural shift from a distributed monolith toward true microservices with properly bounded service contexts
- Mentored junior developers, conducted yearly reviews, monitored pull requests and supported code quality across the team
- Contributed to hiring by reviewing and scoring technical assessments
- Resolved security vulnerabilities and carried out load testing to ensure application reliability and performance

Senior Software Engineer - San Digital

May 2023 - Oct 2023

United Kingdom (Remote)

- Worked in a consultancy environment delivering web applications and software solutions for clients primarily in the EV charging sector
- Built and maintained ASP.NET Core APIs and frontend interfaces using React and Next.js
- Worked with PostgreSQL databases and applied clean architecture principles across projects
- Contributed to CI/CD pipeline setup and cloud infrastructure across Azure and AWS environments

Senior Full Stack Developer - Summit Media

Feb 2021 - May 2023

Hull (Hybrid)

- Designed and led the full architecture of a greenfield affiliate management platform built on Azure, covering infrastructure, CI/CD and service design
- Worked across the full stack using React, .NET, MSSQL and MongoDB with Vertical Slice architecture
- Defined and enforced development and coding standards across the team
- Took an active role in hiring, interviewing candidates and contributing to final decisions
- Mentored junior developers and supported their growth through regular code reviews and pairing sessions

Full Stack Developer - Aptean / Paragon HDX

Aug 2017 - Feb 2021

United Kingdom (On-site)

- Led the migration of a legacy web application from IE6 to modern browser support, coordinating the effort across the engineering team
- Introduced Git branching strategies, CI/CD pipelines and code review practices across a team of 25 engineers
- Established coding and security standards and ran application security testing across flagship products
- Joined the Aptean security team post-acquisition to produce security documentation, evaluate new technologies and build internal security automation tooling

CERTIFICATIONS

70-761: Querying Data with Transact-SQL - Microsoft

70-480: Programming in HTML5 with JavaScript and CSS3 - Microsoft

Emergency First Aid - RYA

EDUCATION

BEng Electronic Engineering (2:1) 2014 - 2017
University of Hull
