

Huseyin Hoca

Senior Full Stack Developer

Hull, UK

hushoca@gmail.com

+44 7438 807969

A results-driven .NET Developer with 9 years of professional experience building scalable, cloud-native applications across a range of industries. Specialises in C#, .NET and React, with strong knowledge of microservices architecture, Azure and modern DevOps practices. Known for taking ownership, driving technical improvements and mentoring engineers to deliver high quality software.

TECHNICAL SKILLS

Frontend	React, Next.js, Svelte, SvelteKit, Angular, TypeScript, JavaScript, HTML, Tailwind, CSS
Backend	C#, .NET, ASP.NET Core Web API, ASP.NET MVC, ASP.NET Minimal APIs, Entity Framework Core, Node.js, GraphQL, REST, SOAP
Databases	MSSQL, PostgreSQL, MongoDB, Azure Cosmos DB, Elasticsearch
Cloud & DevOps	Azure, AWS, Kubernetes, Docker, CI/CD, Git
Other	Microservices, Clean Architecture, Vertical Slice Architecture, SOLID, TDD, Agile, Scrum

EXPERIENCE

Senior Full Stack Developer - Optix

Mar 2024 - Mar 2026

York (Hybrid)

- Built and maintained microservices in C# and .NET handling patient data, financial transactions and payment processing
- Integrated Verifone payment systems via cloud APIs, delivering end-to-end payment processing across the platform
- Developed React front ends and ASP.NET Core Web APIs, working across the full stack throughout the role
- Used Entity Framework Core and PostgreSQL to manage data across clinical and financial domains
- Mentored junior and mid-level developers, conducted yearly reviews and monitored pull requests to maintain code quality
- Contributed to moving the platform closer to a true microservices architecture by identifying and addressing shared schema anti-patterns

Senior Software Engineer - San Digital

May 2023 - Oct 2023

United Kingdom (Remote)

- Worked across multiple client projects in the EV charging sector, building web applications using React, Next.js and .NET
- Developed and maintained ASP.NET Core Minimal APIs and MVC applications deployed on Azure and AWS
- Wrote clean, well-tested code following SOLID principles and Clean Architecture patterns
- Contributed to CI/CD pipelines and Kubernetes-based deployments across client environments

Senior Full Stack Developer - Summit Media

Feb 2021 - May 2023

Hull (Hybrid)

- Designed and led the full architecture of an affiliate management platform built on Azure, using .NET, React and Svelte
- Used Azure Cosmos DB, MongoDB and MSSQL across different services depending on data requirements
- Established coding standards and introduced Vertical Slice Architecture to improve maintainability
- Interviewed candidates and contributed to hiring decisions to grow the engineering team
- Mentored junior developers and drove technical improvements across a small but capable team

Full Stack Developer - Paragon HDX / Aptean

Aug 2017 - Feb 2021

United Kingdom (On-site)

- Led migration of the core HDX product from IE6 to modern browser support, modernising a critical legacy application
- Introduced branching strategies, CI/CD pipelines and code review processes across a team of 25 engineers
- Established coding and security standards used across the engineering org
- Following the Aptean acquisition, moved into a hybrid developer and security role, writing security documentation for developers, running appsec testing and building internal security tooling

CERTIFICATIONS

70-761: Querying Data with Transact-SQL - Microsoft

70-480: Programming in HTML5 with JavaScript and CSS3 - Microsoft

Emergency First Aid - RYA

EDUCATION

BEng Electronic Engineering (2:1) 2014 - 2017

University of Hull

ADDITIONAL

Nationality: Cypriot (EU Settled Status in the UK)

Languages: English, Turkish

Interests: Sailing, Hiking, Electronics, Pottery

Other: Full UK Driving License, Clean Driving Record
